

The City of Bloomington takes an active role in supporting public art and those who make it possible.

Public art enriches life and promotes community awareness and understanding of the visual arts. This public art trail combines art with sustainability, encouraging you to walk, bike, or even carpool.

This brochure will take you through historic spaces, introduce you to the core of the Bloomington Entertainment and Arts District to grab lunch or a show, and guide you through some of the City's beautiful public parks. Look for the colorful signage near all of our art-works to find out more about each one! We invite you to discover what makes Bloomington truly unique through the eyes of an artist.
